DEFINITION OF DONE

A. UI & Desain

- Tersedia 3 tampilan sesuai desain: Men, Women, dan Unavailable Product.
- Styling pakai Vanilla CSS (tanpa framework) + CSS variables untuk palet warna dari Figma.
- Class binding: otomatis memilih style Men/Women/Unavailable sesuai kategori produk.

B. Integrasi API & Logika

- Data diambil dari Fake Store API /products/{index} dengan rentang 1–20.
- Tombol “Next Product” meng-increment index; saat >20 kembali ke 1 (loop).
- Filter kategori: hanya simpan/tampilkan jika category = "men’s clothing" atau "women’s clothing"; selain itu tampilkan Unavailable.
- Tampilkan loader (spinner/skeleton) saat fetch untuk UX yang jelas.

C. UX Perilaku Minimum

- State loading, error, dan empty/unavailable terlihat jelas.
- Tampilan responsif (mobile–desktop).
- Navigasi sederhana: lihat produk → next product → kondisi kategori → tampilkan state yang sesuai.

DEFINITION OF DONE

D. Prasyarat Teknis

- Vue.js v2 terpasang dan berjalan.
- Node.js versi terbaru terinstal.
- Repo GitHub sudah diinisiasi (public), dengan nama ecommerce-catalog.

E. Artefak & Submission

- Kode sudah push & commit ke repo public.
- Lampirkan tautan repo di dokumen txt/notepad: vix_CI_FE_[Nama Peserta] lalu upload ke tautan pengumpulan.

F. Batasan & Catatan

- Checkout/sort/pagination di luar cakupan DoD (boleh jadi roadmap).
- Desain tetap eye-catching, rapi untuk portfolio.
